I. Course Descriptions

53.03300 Beginning Band/Grade 6: This performance-based class focuses on basic instrumental skill development and music reading. The goal of this class is to teach students the proper way to hold and play a brass, percussion, or woodwind instrument with the characteristic tone quality of the instrument. Students can elect to play their instrument of choice with the band director's approval and recommendation. Participation in concert performances outside of regular class hours is required.

53.03410 Intermediate Band/Grade 7: This performance-based class focuses on the development, continuation, and expansion of basic skills begun the previous year that are necessary for effective instrumental music performance. In addition to large group ensembles, individual growth and achievement are encouraged through participation in solo and ensemble festivals, district honor bands, and private lessons. Participation in concert performances outside of regular class hours is required.

53.03520 Advanced Band/Grade 8: This performance-based class is the middle school's most advanced performing ensemble for wind and percussion instrumentalists. This year-long course introduces "comprehensive musicianship" through performance of challenging and varied literature. Skills and concepts from the previous year are developed and expanded upon. In addition to continued refinement of individual performance skills, greater emphasis is placed on ensemble performance skills. Students will continue to develop their knowledge of music theory, begin to analyze and evaluate music, and use critical thinking skills to make refinements in their performance. Individual and ensemble performance skills will be expanded through musical expression and technical accuracy. Individual growth and achievement are encouraged through participation in adjudicated solo and ensemble festivals, district honor bands, and private lessons. Participation in concert performances outside of regular class hours is required.
